GRADUATE DIPLOMA OF MANAGEMENT (LEARNING) [UNITRACK]

About this Course:

This qualification is ideal for those ready to advance their skills in organisational learning and development. If you're looking to lead and shape major learning initiatives within an organisation, this course will equip you with the advanced knowledge and abilities you need. You'll learn to generate and evaluate complex ideas and take charge of designing and executing significant learning and development functions. The course prepares you for leadership roles where you will have full responsibility for both your performance and the success of your team. It is designed for those aiming to enhance organisational capability through strategic learning and development, potentially leading to positions as managers or directors in registered training organisations.

What You'll Learn

- Contribute to the development of learning and development strategies
- Lead strategic transformation
- Implement improved learning practice
- Lead financial strategy development
- Apply critical thinking for complex problem solving
- Initiate and lead applied research
- Lead strategic planning processes for an organisation
- Lead innovative thinking and practice
-

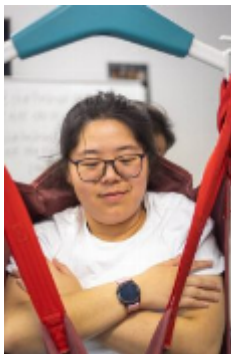
Here's what our students think.

Franchezca Israel
Thank you for the great service and guidance in educating students. I finished my certificate in this college because they're very helpful and professional.



Angelica Okawa
Words cannot express accurately enough how grateful I am for having Fanny as my trainer during most of my Diploma in Early Childhood Education and Care. The level of her service delivery was above and beyond my expectations, as well as her ethics and the knowledge and skill set she kindly shared with her students, always with a positive attitude, broad smile and gentleness that are her trademark.
